About PayPal Checkout

PayPal Checkout is a popular payment gateway integration from PayPal. Learn more about PayPal on their website at <https://www.paypal.com/us/business/accept-payments/checkout>.

Installing PayPal Checkout

To install the PayPal Checkout payment gateway, visit [Settings] > [Company] > [Payment Gateways] > Available, and click the "Install" button for PayPal Checkout.

PayPal Checkout (ver 1.0.1) Signup

Author: Phillips Data, Inc.

With a simple, single integration you can accept debit and credit cards, PayPal, and 10+ local payment methods.

Install

A message will be displayed, indicating that the payment gateway was successfully installed.

 The gateway was successfully installed.

☐ USD

Update Settings

Enter the details provided by PayPal Checkout.

Option	Description
Client ID	Enter your PayPal Checkout Client ID.
Client Secret	Enter your PayPal Checkout Client Secret.
Sandbox	Leave the "Sandbox" checkbox unchecked unless you are testing payments.
PayPal Webhook	Copy the webhook URL for use within your PayPal Checkout account. This is required for Blesta to be able to record payments made with PayPal Checkout.
Accepted Currencies	<div>Check the currencies that you would like to be processed through this payment gateway.</div> <div>The following currencies are available:</div> <div>AUD, BRL, CAD, CZK, DKK, EUR, HKD, HUF, ILS, JPY, MYR, MXN, NOK, NZD, PHP, PLN, GBP, SGD, SEK, CHF, TWD, THB, TRY, USD</div>

When finished, click "Update Settings" to save the details. You have successfully installed and configured PayPal Payments Standard!

API Fields

The Client ID, Client Secret, and Webhook are set under <https://developer.paypal.com/dashboard/applications/sandbox> Note the difference between Sandbox and Live. Click "View live credentials" for live credentials. Copy Client ID and Secret for use in Blesta.
