## About 2Checkout

2Checkout, also known as 2CO is a global payment processor. Learn more about 2Checkout on their website at <https://www.2checkout.com/>.

## Installing 2Checkout

To install the 2Checkout payment gateway, visit [Settings] > [Company] > [Payment Gateways] > Available, and click the "Install" button for 2Checkout.

A message will be displayed, indicating that the payment gateway was successfully installed.

When finished, click "Update Settings" to save the details. You have successfully installed and configured 2Checkout!

## Common Issues

### Transactions are not being created in Blesta after a client makes a 2Checkout payment.

Make sure 2Checkout's IPN is enabled. If it's not enabled, you will need to set a URL.

1. Log into your 2Checkout account
2. Go to Integrations then "IPN Settings"
3. Click "Add IPN URL"
4. Enter the IPN URL and hit "Add IPN"
5. Scroll down to the "Response tags" section
6. Make sure all of the following are checked: IPN\_EXTERNAL\_REFERENCE[], EXTERNAL\_CUSTOMER\_REFERENCE, IPN\_PID[], IPN\_PNAME [], IPN\_DATE, IPN\_TOTALGENERAL, CURRENCY, REFNO
7. Click the "Update" button

The IPN URL will be something like [https://yourdomain.com/blesta\\_directory/callback/gw/1/\\_2checkout](https://yourdomain.com/blesta_directory/callback/gw/1/_2checkout) where "1" is your company ID. If you do not have any add-on companies, or don't know what that is, use "1".

Also make sure that you have this information set under the IPN tab within <https://secure.2checkout.com/cpanel> and **NOT INS**.
