Option	Description
User	The Admin Username provided by NameCheap.
Key	The API key provided by NameCheap.
Sandbox	Check to enable sandbox mode. This simulates API requests, it will not register domains.

Creating Packages

Welcome Email

The "Tags" section describes tags that may be used in the welcome email. The welcome email content is inserted into the "Service Creation" email template under [Settings] > [Company] > [Emails] > Service Creation. Only details unique to this service should be entered into the welcome email section for the package.

Sample Email

This sample email could be used in the Package Welcome Email section to help you get started. Be sure to enter content for your welcome email in both the HTML and Text sections.

Your new domain has been successfully registered!

Domain: {service.DomainName}

Thank you for your business!
