

Changing the Theme

Blesta ships with several themes for the staff and client interfaces, and more can be easily created. To select and manage themes, visit [Settings] > [Company] > [General] > Themes. There are two tabs, the default, Staff, and the other, Client control staff and client themes respectively.

To change the theme, select a theme on the left column, and then click "Select Theme". The theme selection will take affect immediately.

To add a new theme, click the "Add Theme" button in the upper right of the window.

Themes

<input type="radio"/>		Sponge	Edit , Export , Delete
<input type="radio"/>		Standard Issue	Edit , Export , Delete
<input type="radio"/>		WHMBlesta	Edit , Export , Delete
<input type="radio"/>		Yesteryear	Edit , Export , Delete

Select Theme

As of Blesta version 3.2, themes can be imported and exported, in JSON format, through the admin interface. When adding a new theme, an option to import a theme from file will be available.
