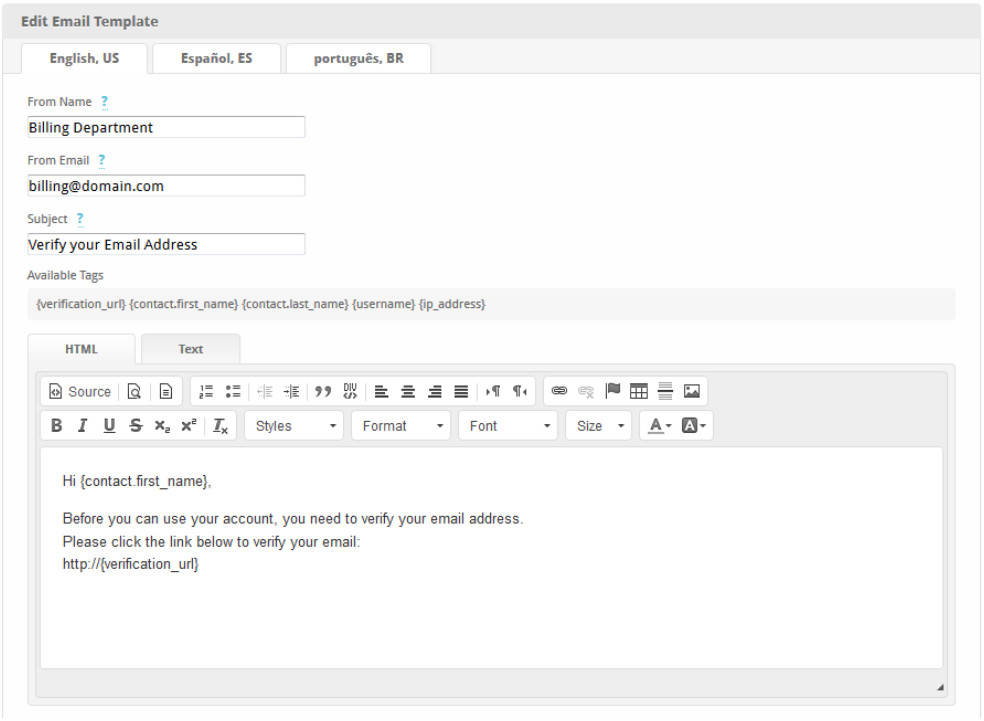
Description

This email template is sent to users when they create an account or change their email address. This can be used validate an email address or confirm an email change.

Supported Tags

The tags described in Blesta are only a list of commonly-used tags, for brevity.



The tags below are all of those available for this email template. For other email and tag customizations, see Customizing Emails.

Tag	Description	Notes
{verification_url}	The URL a user must visit to verify their email address	
{contact.first_name}	The client's first name	
{contact.last_name}	The client's last name	
{username}	The client's username	
{ip_address}	The the ip_address of the user creating the account or making the email change	

Due to the nature of tag objects containing several fields, many of which are likely irrelevant for use in email templates, but may be useful to you in certain circumstances, an example dump of the tag objects are shown below.

The {contact} object

```
stdClass Object
(
    [id] => 1
