The "Tags" section describes tags that may be used in the welcome email. The welcome email content is inserted into the "Service Creation" email template under [Settings] > [Company] > [Emails] > Service Creation. Only details unique to this service should be entered into the welcome email section for the package.

#### Sample Email

This sample email could be used in the Package Welcome Email section to help you get started. Be sure to enter content for your welcome email in both the HTML and Text sections.

When creating or editing a package that uses this module, the following tags will be available:

Tags	Description	Notes
{service.buycpanel_ipaddress}	The IP address associated with this license	e.g. "1.2.3.4"
{service.buycpanel_domain}	The domain name associated with this license	e.g. "domain.com"
{service.buycpanel_license}	The license key associated with this license	

Note that not all tags may contain data for each license type as not all license types require all fields.

If this is the first Package you are creating with this module, select the "Create a New Group" option, and enter a Group name. If you are adding a subsequent Package and wish for it to be part of the same group, select "Select from Available Groups", and move the group from the right to the left of the multi-select box.

When finished, click "Create Package" to create this package.

## **Final Steps**

The only thing left to do is to add this Package Group to an order form so clients may place orders for your BuycPanel licenses. See Creating an Order Form for more details.
