About eWay

eWay is a popular Australian payment gateway. Learn more about eWay on their website at http://www.eway.com.au/.

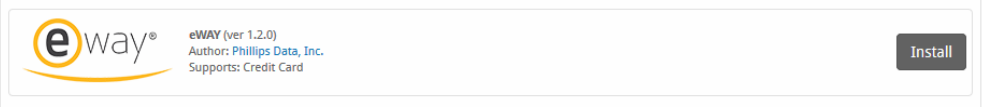
Credit Card Processing Features

Local Storage	Token Storage	Process	Refund	Void
YES	NO	YES	YES *	NO

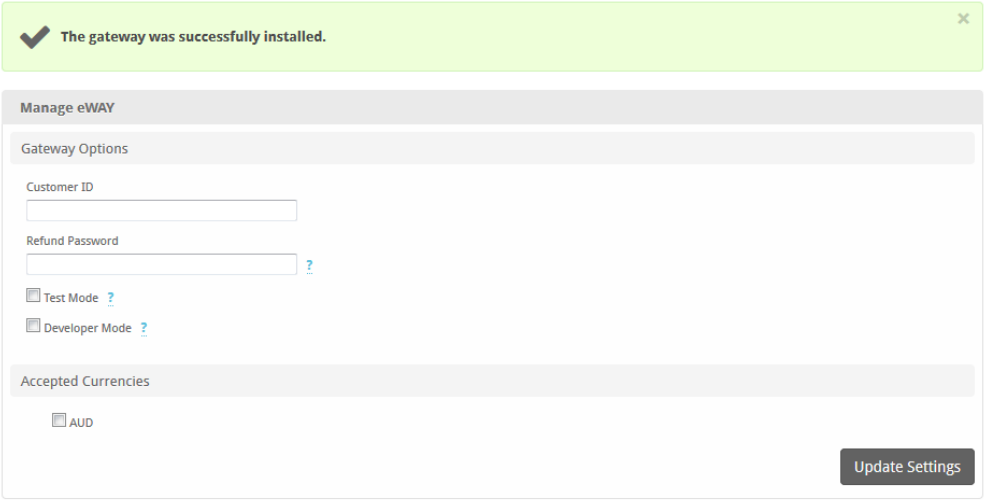
* Refunds can only be processed if a "Refund Password" is provided when configuring the payment gateway.

Installing eWay

To install the eWay payment gateway, visit [Settings] > [Company] > [Payment Gateways] > Available, and click the "Install" button for eWay.



A message will be displayed, indicating that the payment gateway was successfully installed.



Enter the details provided by eWay.

Field Name	Description
Customer ID	Enter the Customer ID provided by eWay or your merchant account provider.
Refund Password	Enter the Refund Password as set in your eWay account. If not set, refunds cannot be issued.
Test Mode	Check to enable test mode. If checked, a test account with a test credit card number will be used regardless of what is entered.
Developer Mode	Check to enable Developer Mode. If checked, transactions will be posted to the eWay sandbox environment. A sandbox account is required.
Accepted Currencies	Check the currencies that you would like to be processed through this payment gateway. **The following currencies are available:** AUD

When finished, click "Update Settings" to save the details. You have successfully installed and configured eWay!
