Registrar Module Features

Register	Renew	Transfer	DNS Management	Email Forwarding	ID Protection	EPP Code	Pri
YES	YES	YES	YES	NOT YET	YES	YES	

Installing OpenSRS

1. Visit [Packages] > [Domain Options] > [Registrars].
2. Click the "Install" button within the OpenSRS registrar listing.

The screenshot shows a table with one row. The columns are 'User' (blesta1), 'API Key' (7903000073fa3fcbcdedec653e7cc16c78170b96b9522a7ebdf), 'Sandbox' (Yes), and 'Options' (Edit Delete). There is also an 'Add Account' button at the top right.

User	API Key	Sandbox	Options
blesta1	7903000073fa3fcbcdedec653e7cc16c78170b96b9522a7ebdf	Yes	Edit Delete

You can click [Add Account] to connect your OpenSRS account to Blesta.

The screenshot shows a form with fields for 'User' (blesta1), 'Key' (7903000073fa3fcbcdedec653e7cc16c7817), and a 'Sandbox' checkbox (checked). There is a 'Basic Settings' header and an 'Update Account' button at the bottom right.

Option	Description
User	The username provided by your registrar.
Key	The API key provided by your registrar.
Sandbox	Check to enable sandbox processing. This simulates API requests, and will not actually register domains.

Creating Packages

TLD Pricing

To start selling domains, you'll need to add the domain TLDs to Blesta, simply click on [Add TLD] to get started.

The screenshot shows a table with rows for '.com', '.net', '.org', '.co', and '.us'. Each row has checkboxes for 'DNS Management', 'Email Forwarding', 'ID Protection', and 'EPP Code'. The 'Module' column shows 'OpenSRS' and the 'Options' column shows 'Edit, Disable'. A new row for '.co.uk' is being added at the bottom, with the 'Add' button visible.

	TLD	DNS Management	Email Forwarding	ID Protection	EPP Code	Module	Options
<input type="checkbox"/>	.com	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	OpenSRS	Edit , Disable
<input type="checkbox"/>	.net	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	OpenSRS	Edit , Disable
<input type="checkbox"/>	.org	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	OpenSRS	Edit , Disable
<input type="checkbox"/>	.co	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	OpenSRS	Edit , Disable
<input type="checkbox"/>	.us	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	OpenSRS	Edit , Disable
x	.co.uk	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	OpenSRS	Add

After adding the TLD by clicking Add you can enable the TLD. This will now show a green tick next to the TLD.

The TLD was successfully added!

	TLD	DNS Management	Email Forwarding	ID Protection	EPP Code	Module	Options
<input type="checkbox"/>	.com	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	OpenSRS	Edit , Disable
<input type="checkbox"/>	.co.uk	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	OpenSRS	Edit , Enable
<input type="checkbox"/>	.net	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	OpenSRS	Edit , Disable
<input type="checkbox"/>	.org	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	OpenSRS	Edit , Disable
<input type="checkbox"/>	.co	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	OpenSRS	Edit , Disable
<input type="checkbox"/>	.us	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	OpenSRS	Edit , Disable

Let's add the pricing for the TLD and configure it. Click on [Edit].

Pricing

Term	Register Price	Renew Price	Transfer Price
<input checked="" type="checkbox"/> 1 year	10.00	10.00	10.00
<input type="checkbox"/> 2 year	0.00	0.00	0.00
<input type="checkbox"/> 3 year	0.00	0.00	0.00
<input type="checkbox"/> 4 year	0.00	0.00	0.00
<input type="checkbox"/> 5 year	0.00	0.00	0.00
<input type="checkbox"/> 6 year	0.00	0.00	0.00
<input type="checkbox"/> 7 year	0.00	0.00	0.00
<input type="checkbox"/> 8 year	0.00	0.00	0.00
<input type="checkbox"/> 9 year	0.00	0.00	0.00
<input type="checkbox"/> 10 year	0.00	0.00	0.00

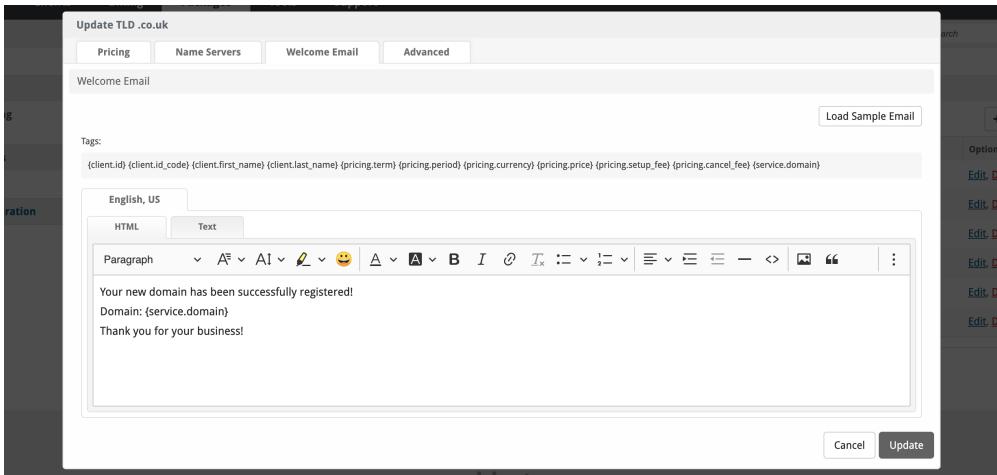

Tick the box for the terms you'd like to sell for this domain, fill in the register price, Blesta will auto-fill in the renew and transfer prices for you, simply edit them to fit your needs.

If you have more than one currency enabled on Blesta you can set other prices.

Name Servers

You can set your nameservers by default here. These will be automatically assigned to any domain being registered with this TLD. The clients can change this however.

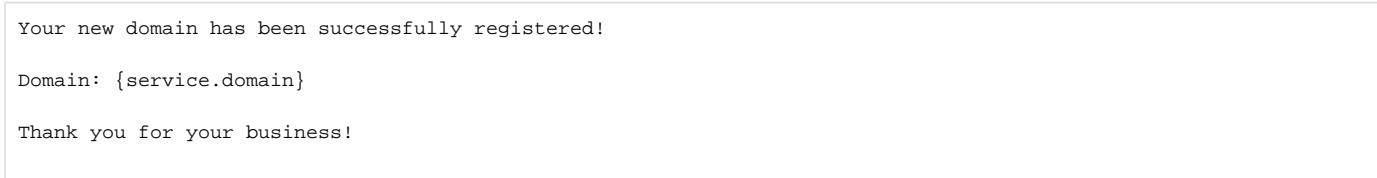

Welcome Email

The "Tags" section describes tags that may be used in the welcome email. The welcome email content is inserted into the "Service Creation" email template under [Settings] > [Company] > [Emails] > Service Creation. Only details unique to this service should be entered into the welcome email section for the package.

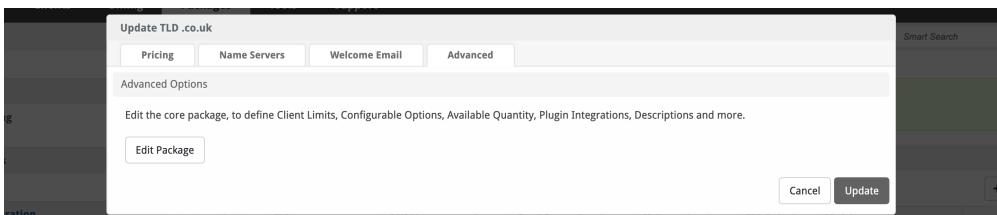

Sample Email

This sample email could be used in the Package Welcome Email section to help you get started. Be sure to enter content for your welcome email in both the HTML and Text sections.

You can click on [Load Sample Email] if you accidentally edit and wish to revert to our default template.

Advanced

The Advanced section takes you to the old fashioned way to edit and create a package. You won't need to touch that unless you really want to.

Common Problems

- Q: I can't connect to the API
- A: Make sure TCP port 55443 egress is open at your firewall, and your server's primary IP is whitelisted with OpenSRS. If you have SSH access to your server, run this command to get your server's primary IP: `curl ifconfig.me`
