Description

This email template is sent to all **active** staff members that have subscribed to receive the Invoice Creation Report (under **[My Info]** -> **[Notices]**). The Invoice Creation Report is sent once a day. It contains a CSV attachment listing all invoices that were created the previous day. The report is identical to the Invoice Creation report that can be generated under **[Billing]** -> **[Reports]** at any time.

Supported Tags

The tags described in Blesta are only a list of commonly-used tags, for brevity.

Hi {staff.first_name},

A Daily Invoice Creation Report has been generated for {company.name} and is attached to this email as a CSV file.

The tags below are all of those available for this email template. For other email and tag customizations, see [Customizing Emails](#).

Tag	Description
{staff.first_name}	The staff's first name
{staff.last_name}	The staff's last name
{staff.email}	The staff's email address
{company.name}	The name of the company from which the report was generated

Due to the nature of tag objects containing several fields, many of which are likely irrelevant for use in email templates, but may be useful to you in certain circumstances, an example dump of the tag objects are shown below.

The {staff} object

```
std::class Object
{
    [id] => 1
    [user_id] => 1
    [first_name] => First
    [last_name] => Last
    [email] => first.last@domain.com
    [email_mobile] =>
    [status] => active
}
```

The {company} object

```
stdClass Object
(
    [id] => 1
    [hostname] => domain.com
    [name] => My Company
    [address] =>
    [phone] =>
    [fax] =>
)
```
