ADD RESELLER

Field Name	Description
Username	Enter your account.blesta.com/client username.
Password	Enter your account.blesta.com/client password.

After filling out these options, click "Add Reseller" to add your Blesta reseller account.

i

Most people will only have 1 reseller account.

Creating Packages

Packages define the pricing, welcome email, module and more. Packages can be assigned to Package Groups, and added to Order Forms. To create a Package, visit [Packages] > Browse, and click the "Create Package" button.

Creating a Package consists of several sections:

Basic

The Basic section consists of the following options:

New Package

Basic

Package Name

Status

Active

Quantity Available

☐ Unlimited

☒ **Description**

☒ **Configurable Options**

Module

Blesta License

Field Name	Description
Package Name	Enter the name of this Package, it will be visible wherever services are listed and on any order forms.
Status	"Active" is the default, "Inactive", and "Restricted" are also available.

The "Tags" section describes tags that may be used in the welcome email. The welcome email content is inserted into the "Service Creation" email template under [Settings] > [Company] > [Emails] > Service Creation. Only details unique to this service should be entered into the welcome email section for the package.

Sample Email

This sample email could be used in the Package Welcome Email section to help you get started. Be sure to enter content for your welcome email in both the HTML and Text sections.

Thanks for choosing us for your Blesta license needs.

Your {package.name} is now active and can be installed. If you have an existing installation and need to change your license key you can do so under Settings > System > General > License.

License Key: {service.license}

You can download Blesta from <https://account.blesta.com/>, just click on the "Downloads" section.

Group Membership

The screenshot shows a web form titled "Group Membership". It contains a message: "A package must belong to at least one group to be usable." Below this, there are two radio buttons: "Select from Available Groups" (which is selected) and "Create a New Group". Under the selected option, there is a text input field labeled "Standard Package Group Name" with the text "Blesta Monthly" entered. At the bottom right of the form is a button labeled "CREATE PACKAGE".

If this is the first Package you are creating with this module, select the "Create a New Group" option, and enter a Group name. If you are adding a subsequent Package and wish for it to be part of the same group, select "Select from Available Groups", and move the group from the right to the left of the multi-select box.

Separate Monthly and Owned

If you allow clients to upgrade/downgrade their packages, you should separate your monthly and owned licenses into separate groups. For example, all monthly licenses in one group, and all owned licenses in another.

Final Steps

The only thing left to do is to add this Package Group to an order form so clients may place orders for Blesta Licenses. See [Creating an Order Form](#) for more details.

When finished, click "Create Package" to create this package.
