Live AuthToken	Enter your Live AuthToken as provided by The SSL Store.

Test PartnerCode	Enter your Test PartnerCode as provided by The SSL Store.
Test AuthToken	Enter your Test AuthToken as provided by The SSL Store.
Operation Mode	(TEST/LIVE) Select TEST to order SSL Certs in Test Mode. Switch to LIVE before going to production.

## **Creating Packages**

3.

Packages define the pricing, welcome email, module and more. Packages can be assigned to Package Groups, and added to Order Forms. There are two ways to create Packages for your SSL Certificates.

#### Using the The SSL Store Module:

- Create a Standard Package Group under [Packages] > [Package Groups]. Name it something like "SSL Certificates".
   Under [Settings] > [Company] > [Modules] > TheSSLStore Module, click the "Manage Button", then "Import Packages".

kages Update Credential
argin.

4. Click "Import Packages". You will be able to see a list of all the imported packages under Packages.

ackage ID 👻	Name	Module	Quantity	Options
2	Basic Web Site Anti-Malware Scan	TheSSLStore Module	Unlimited	Edit, Copy, Delete
71	Symantec® Secure Site Pro SHA-1 Private	TheSSLStore Module	Unlimited	Edit, Copy, Delete
70	Thawte SSL Webserver Multi-Domain Wildcard	TheSSLStore Module	Unlimited	Edit, Copy, Delete
59	GeoTrust True BusinessID with Multi-Domain Wildcard	TheSSLStore Module	Unlimited	Edit, Copy, Delete
58	Symantec® Secure Site Pro Multi-Domain Wildcard	TheSSLStore Module	Unlimited	Edit, Copy, Delete
67	Symantec® Secure Site Multi-Domain Wildcard	TheSSLStore Module	Unlimited	Edit, Copy, Delete

50	CERTUM Trusted SSL Certificate	TheSSLStore Module	Unlimited	Edit, Copy, Delete
59	CERTUM Trusted SSL Wildcard Certificate	TheSSLStore Module	Unlimited	Edit, Copy, Delete
58	Certum Commercial SSL	TheSSLStore Module	Unlimited	Edit, Copy, Delete
57	CERTUM Commercial SSL WildCard Certificate	TheSSLStore Module	Unlimited	Edit, Copy, Delete
56	Web Inspector Enterprise	TheSSLStore Module	Unlimited	Edit, Copy, Delete
5	Web Inspector Plus	TheSSLStore Module	Unlimited	Edit, Copy, Delete
54	Web Inspector Starter	TheSSLStore Module	Unlimited	Edit, Copy, Delete
53	Web Inspector Premium	TheSSLStore Module	Unlimited	Edit, Copy, Delete

#### Adding Packages Manually:

To create a Package, visit [Packages] > Browse, and click the "Create Package" button.

Creating a Package consists of several sections:

#### Basic

The Basic section consists of the following options:

Update Package
Basic
Package Name RapidSSL Certificate
Status Cative C
Quantity Available
Description     HTML Text
De Source 22 日 江 年 年 19 37 目 主 主 目 +1 17 ( ● □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □ □
A standard, yet popular Domain Validated (DV) certificate due to its low cost and rapid issuance process. With 99% of browser recognition and its encryption strength of 256-bit, it's an ideal solution for protecting a single, entry-level aite. View Full Product Details
Configurate Options

TheSSLStore Module 0

Field Name	Description
Package Name	Enter the name of this Package, it will be visible wherever services are listed and on any order forms.
Status	"Active" is the default, "Inactive", and "Restricted" are also available.
Quantity Available	If this Package has a limited quantity available, enter the quantity, or leave it as "Unlimited".
Description	Enter a Description for this Package. HTML is allowed, and descriptions appear on order forms.
Configurable Options	A Configurable Option Group may be selected if previously created, but this module does not support configurable options during provisioning.
Module	Select "TheSSLStore Module" for the module.

### **Module Options**

The Module Options section consists of the following options, which are specific to TheSSLStore:

Product code RapidSSL Certificate		
TheSSLStore Credential Blesta		
Module Options		

TheSSLStore Credential	Select your TheSSLStore Reseller Name.
Product Code	Select the SSL Certificate or Product you'll be selling through this Package from The SSL Store.

Pricing Cancel at end of term

You may wish to check the "Cancel at end of term" box. This will prevent the SSL certificate from auto-renewing, requiring the client to place a new order if they wish to renew. Otherwise, the SSL certificate will renew automatically. When importing Packages through the module, this option will not be checked.

Pricing						
						Add Additional Price
Term	Period	Currency	Price	Setup Fee	Cancellation Fee	Options
12	Month ᅌ	USD ᅌ	11.70	0.00	0.00	Remove
24	Month	USD	20.80	0.00	0.00	Remove
36	Month ᅌ	USD	29.25	0.00	0.00	Remove
Taxable						
Cancel at end of term						
🗌 Enable Pro rata  ?						

Field Name	Description
Term	Enter the term for the desired pricing option. For example, if you wish to create a 3 month pricing option, enter 3 here.
Period	Select "Month" for the period for this pricing option. The SSL Store requires a period of Month.
Currency	Select the currency this pricing option is available for.
Price	Enter the price for this pricing option.
Setup Fee	If there is a setup fee, enter it here.
Cancellation Fee	If there is a fee to cancel early, enter it here.

Click the "Add Additional Price" to add more pricing options. It's common for people to create 1 Month, 3 Month, 6 Month, and 1 Year price options. There are many possible combinations.

You've such http://php7 OR If you are Now that y	ccessfully completed the purchasing process for an SSL Certificate! But wait, your SSL still requires a few more steps which can be easily done at the following URL: <u>iblesta com/client/services/manage/(service.id)/tabClientGenerateCert/</u> using AutoInstall SSL then please follow the below steps: rour SSL purchase is complete, it's time to set up and install your new SSL certificate automatically!

The "Tags" section describes tags that may be used in the welcome email. The welcome email content is inserted into the "Service Creation" email template under [Settings] > [Company] > [Emails] > Service Creation. Only details unique to this service should be entered into the welcome email section for the package.

#### Sample Email

This sample email could be used in the Package Welcome Email section to help you get started. Be sure to enter content for your welcome email in both the HTML and Text sections.

You've successfully completed the purchasing process for an SSL Certificate! But wait, your SSL still requires a few more steps which can be easily done at the following URL: http://account.yourdomain.com/client/services/manage/{service.id}/tabClientGenerateCert/ OR If you are using AutoInstall SSL then please follow the below steps: Now that your SSL purchase is complete, it's time to set up and install your new SSL certificate automatically! To use our AutoInstall SSL technology, the fastest and easiest way to get your new SSL certificate set up, please login to your cPanel/Plesk control panel, click on the AutoInstall SSL icon. Then use the following Token for the automatic installation of Store Order ID : {service.thesslstore\_order\_id}. Token : {service.thesslstore\_token} You'll be guided through the entire process from there, and it should only take a few minutes. If you experience any problems or have any questions throughout the process, please feel free to open a support ticket, we know all the ins and outs of SSL and can quickly help you with any issues. Thank you for trusting us with your web security needs.

Tags	Description	Notes
{service. thesslstore_order_id}	The host name of the server that the service was provisioned on	e.g. "12345"
{service. thesslstore_token}	The SSL Token	Can be used for automatic SSL Certificate installation on cPanel or Plesk.

### **Group Membership**

Group Membership A package must belong to at leas	t one group to be usable.		
Member Groups SSL Certificates	Available Groups		
			1

If this is the first Package you are creating with this module, select the "Create a New Group" option, and enter a Group name. If you are adding a subsequent Package and wish for it to be part of the same group, select "Select from Available Groups", and move the group from the right to the left of the multi-select box.

When finished, click "Create Package" to create this package.

### **Final Steps**

The only thing left to do is to add this Package Group to an order form so clients may place orders for your cPanel servers. See Creating an Order Form for more details.
