Option	Description
User	The API User provided by NameSilo.
Key	The API key provided by NameSilo.
Sandbox	Check to enable sandbox mode. This simulates API requests, it will not register domains.
Default Portfolio	Your reference.

Importing domain TLDs from NameSilo

One of the main features of the NameSilo module which sets it apart from all our other domain modules is the Manage Packages feature.

Firstly we need to create a "Package Group" for the domains so let's do that by going to [Packages] > [Package Groups] and create a package group for all the domains.

We will be using "Domains" in this guide.

Next we need to go back to the Manage NameSilo page above after installation and click on "Manage Packages".

Manage Domain Packages

Basic

Tags:

{domain.tld} {domain.tld_uppercase}

English, US

Package Name

{domain.tld}

▼ Description

☒ Use renewal prices for package upgrades [?](#)

Option	Description
Package Name	Enter a package name, you can use either {domain.tld} ".com" or {domain.tld_uppercase} ".COM"
Description	You can write a description about the TLDs.
Use renewal prices for package upgrades	When enabled, upgrading to this package will use renewal prices if they are set. The regular price will be used if this setting is disabled.

Module Options

Account

Demo ▼

Name Server 1

dns1.blesta.com

Name Server 2

dns2.blesta.com

Name Server 3

Name Server 4

Name Server 5

Option	Description
Account	If you have multiple accounts for NameSilo select the account to use for these domains.
Name Servers	Enter your name servers which the new domains will be set-up with.

Available TLDs

In order to prevent timeouts a maximum of 89 packages can be saved at a time. Run this as many times as needed to save all packages.

Save Packages

Option	Description
--------	-------------

TLD	Your selected domain TLDs will show up here.
Currency	If you have more than one currency in Blesta it will show each currency per TLD for you to pick a price for.
Previous Registration price	The previous registration price you was being charged for the TLD
Previous Renewal Price	The previous renewal price you was being charged for the TLD
Current Registration Price	The current registration price you're being charged for the TLD
Current Renewal Price	The current renewal price you're being charged for the TLD
Price	The price you want to charge your customers for registering the TLD.
Renewal Price	The price you want to charge your customers for renewing the TLD.
Lock	Tick this box to lock in the price.

Finally select the Domain package group you created at the start and hit Save packages. All the packages will be created for you straight away.

Final Steps

The only thing left to do is to add this "Domain package group" to an order form so clients may place orders for your NameSilo. See [Selling Domains](#) for more details.

Creating Packages

Welcome Email

The "Tags" section describes tags that may be used in the welcome email. The welcome email content is inserted into the "Service Creation" email template under [Settings] > [Company] > [Emails] > Service Creation. Only details unique to this service should be entered into the welcome email section for the package.

Sample Email

This sample email could be used in the Package Welcome Email section to help you get started. Be sure to enter content for your welcome email in both the HTML and Text sections.

```
Your new domain has been successfully registered!
```

```
Domain: {service.domain}
```

```
Thank you for your business!
